

25,000-psi BOP

Ultra-high pressure environments require proven ultra-HP BOPs

APPLICATIONS

- Ultra-high pressure jackup drilling rigs

BENEFITS

- Industry-leading BOP technology evolved for 25K pressure environments

The Cameron 25,000 psi BOP is the first of its kind. It's designed to fit on current rigs, deliver high-pressure completion performance and gives you the technology to take on the harsh demands of 25K pressure environments.

- 13 $\frac{5}{8}$ in 25,000 psi WP
- Shell tested to 1.5 times WP
- Close ratio = 9.1
- API 16A, 3rd edition; ASME Section VIII, Division 3, 2010 Edition
- Operating system similar to EVO* compact, offshore, ram-type BOP with wedge lock technology
- 5000 psi rated hydraulic operating system
- Builds upon our 18 $\frac{3}{4}$ in 20K ram technology
